Bill:

It was a real pleasure dealing your company and also the father and son team of Hutta Inc. who did the actual installation  
We were totally happy with the time and energy that went into re-gilding our 7 gold domes.  
As you were aware this is one of the larger projects that we did this year.

The results are spectacular, the gold shining in the sun is a sight to behold.  
Our parishioners had no idea that the results would have been better than our original gilding.

Any time you have have church or committee that is sitting on the fence and not knowing what direction o go in, please give them my personal cell phone number and I will take their call and give you a great review.  
Please see the attached pictures below  
I will send additional pictures in just a bit

Regards,

Dennis
